SUMMARY

road, fair shake, rev, flying, scam, thought, volkswagen, astro, property, tyler, matt, suv, dayton, brakes, constantly, labor, diesel engine, senior, making

00:00

oh three it is 530 Oh god I didn't call the let me go call the Yeah it's 530 On Wednesday I thought they were coming bought this Volkswagen SUV flying down the road I mean I thought it was in I thought was a the first time I it and I seriously seriously thought was a I was what the and then flying past it was on the interstate and it slammed on brakes right as it gets some Tyler's pulled in. And then earlier today, all I was and I should have done it. It was about 230 All I was the diesel engine, the diesel engine with that big Astro. Crank up and rev up up and down the road you know you know it we worked really for this place for years. And then to come along then you know then have it pretty much taken from us from underneath us and to lose everything that we've about it. You know, we have no privacy anymore. We the guys you know, the neighbor across the street from us has cameras on our property you know, they keep the roads torn up. They keep everything loud. They're constantly building they're constantly taking down more land and selling it off. And they're making literally they're making a killing off of our off of our labor.

02:52

You know I'm getting one right I want to write the right Mr. Dayton, the senior and his brothers those that were in charge of it and I mean I really do because I I don't know if they understand what they've done does and I don't understand. I mean because I suspect that it I suspect that they got a bad the bad end of the too. I don't you know, because I don't trust anything. I don't know anything is going on. And so I don't think they got a fair shake. I don't think I got a fair shake. I think you know, this was a scam one way to scam people out of stuff. That's exactly what looks has been. So, you know, I kind of want I want to contact them and ask them about it and be you know, this property is old. You know, we're you know, it's pretty much killed us and

03:56

you know, and uh, you know, you know, but, but thanks to how Matt manage this or Matt and Doug manage this. As it were it's ruined us. It's ruined everything we've worked with for years.
