Oh Today that's 1678 it's 345 on Sunday afternoon, Sunday, December the 11th. And we were sitting here having a very lazy Sunday television. And then here comes to toddlers are they toddlers pulled into the and we could hear him, they pulled into the road or home road, and we can hear him and they are. You know, it's they've pulled in and we can their is so loud. We can hear it over the TV, inside our home over the TV. And it's really annoying. Yeah, no one needs a that loud. And that's what bothers me about a lot of these that are driving around here. They are so freaking loud and you can hear it in your TV you can you know if you're in your house or trying to sleep, they'll wake you up. And there's no one needs a that big no one is outrageous if and courteous and up. Lover
