## SUMMARY

engine, headaches, stoppage, drives, side, difference, revving, maxing, suspected, opened, road

## SPEAKERS

00:00

Well, opened up it's 5:30pm. opened up and they're the guys driving the side by side there. I've seen them come down the road once or twice already I've actually physically seen them, and headaches revving engines and maxing out his engine and the nephews are testing out their engine. And so they're so it's really loud over here and really not right. But Yep. So the, so the side by sides have been We're. I've never really stopped. you know whatever police action was done, never made a difference. And it's now suspected that they're that they're actually the person that drives them are actually on road that drives one of them is on road. But. Yep, so the headaches, the headaches are taken out their engines and everything and nothing's really changed. So no difference no change No, no stoppage nothing. And here's another one. Taking out his engine. You know that's not, you know, this no one should have to live this.
