abernathy, land, dismissal, working, calling, code enforcement, walked, dissipates, lied, tied, bias, sheriff, sue, criminal charges, thought, pretty, talk, shane

SPEAKERS

00:02

All right, it's Thursday, November 16. That's about 6:30pm. And I haven't been keeping them notes lately because I haven't thought of it and you know, everything's so busy right now. I'm desperately trying to fight this criminal charges that have been brought me and they're completely ridiculous. It's Basically, it's a group that you know, it's it's the same people that have been us it's still the Tyler's and the sevens. They're still doing it. You know, they, they reported me to the sheriff's office. They were not anywhere around. There are no witnesses. All there is as an ear witness. There is no witnesses. And you know, because I happen to be walking from the house with a gun of suddenly that means I'm shooting by the road

01:05

so there's no witnesses there have no witnesses or nothing. And the end there's an extreme bias. There's an extreme bias and then the police so they're calling somebody to their dogs calling somebody or or but they're calling somebody but somebody they're calling somebody and they're they're using a political connection. The Sheriff's Department because of slander. They're sitting there dancing, slandering lies about us and whatever. And they're tarnish your enough to where whenever they call these this person, this person comes out firing we're the we're Charleen, a member of the Manson family. It's complete It is bias. It's And it's suitable. But you know, we need it. You know, I've been working on this Don Dominique, who is I guess his brother Domaine diamond he's been working this this construction behind our farm is turned into I I never really visualized or comprehend how that can be. But it's And as we all guessed, the man lied to us and he's putting in too I mean, there's no way in this system was private farm, the size of the roads, everything else he's putting in subdivision. It's what he's doing. Even if he doesn't want it. Certainly he still put in subdivision. So we know we're being lied to about that. We've called the code enforcement, they're not doing anything. They're not going to do anything. She doesn't know the codes. She's not even listening to us. So we're probably gonna have to sue the county to recover damages made by the code enforcement not doing her So that's another person we have to sue. You know, we're

already going to probably wind up suing Doug for his role in all this. And Abernathy and the other day we're going to, you know, it's going to be a [REDACTED] because I mean, what we're facing is [REDACTED] is pretty much [REDACTED] smalltime [REDACTED] So but yeah, I've [REDACTED] taken some pictures and it's [REDACTED] so outrageous. What we can see from here, [REDACTED] you [REDACTED] were, you know, I used to go to the top of the hill and whenever we got the top Hill, it was still [REDACTED] very wooded and stuff. But now you got to go up the hill and it's [REDACTED] open for [REDACTED] half a mile. [REDACTED] he's decimated this land. And naturally, you know, he's already you know, he's already knows Abernathy. There's no doubt he's either tied to Abernathy was tied to Shane. The probabilities of him working in the same area within the same professional Shane are too small for him not to have known Shane. So he's connected and no one else around here. But me is interested in the shed. No one else but me is calling about it. So that right there tells you they're in on it. They're totally [REDACTED] This was all part of their plan. You know, that's the sale of this land was probably set up before it even happened. And, you know, which is [REDACTED] another grounds for more grounds for lawsuit maybe even some criminal charges it goes I mean, this is definitely multimillion dollar lawsuit right here. So that's what we're working on everything. Yeah, I [REDACTED] stepped outside. We've had three days straight of smoke and fire and was worried about is it dissipates decimate dissipates during the day, but then during the [REDACTED] it comes [REDACTED] live [REDACTED] And it's definitely coming from the lamp from land behind us. It's where it's coming from and I saw the guy leave and leave about six [REDACTED] without getting dark. I came out here and walked all the way out here. And as soon as I got close to it, boom, all this suddenly [REDACTED] boom, I'm gonna I mean, you smoke smoke [REDACTED] come out of nowhere. And you know, it's a little bit too convenient that every time it gets dark all of a sudden lead into bugs. I understand there's a there's the cooling of the earth and everything but that's a little bit too well timed. But yeah, so I was wondering right now, they've been burning for days. Of course I can't call and complain about it because you know, Doug's the fire chief. And he's not gonna do [REDACTED] about it. Last time. I called him about it. He said it was summer haze in which is another person you don't know the reasons there. So what it is, is that hangry people have gotten themselves in position where they can absolutely can control what happens around me. And they're taking advantage of it to destroy your family and it's definitely been a moral was probably unlawful. So but I haven't been able to get into it so this is a it's a complex as you enter through the process is not I mean, there's there's a it's too convenient. There's no way it arose. on its own. There's not a natural and emerging behavior or an emerging set of [REDACTED] It isn't definitely planned. But it was planned. And it's not as [REDACTED] as [REDACTED] oh, I walked on the show to get it me. I mean, this is a complex thing and it's difficult to explain. And the complexity of it is what's throwing off every attorney we've talked to no one not a single one of them has time to talk to me for it. So I don't know I'm reaching out to domain and reaching out there but no one's got time. But it's pretty bad. And in our dogs dying, we're still getting stalked. [REDACTED] I thought I thought I [REDACTED] Mr. Simmons, shout out at me, said hey, and he started saying something and I was [REDACTED] I [REDACTED] walked off there. You know, it's a constant thing of constantly being [REDACTED] constantly installed. And then we got this [REDACTED] going on. And we have code enforcement that's not handling it. And they're stupid enough to think that they're that we don't know what's going on. They're stupid enough to think that they can [REDACTED] sneak up on us. Well, they haven't stepped up [REDACTED] up on us but it's [REDACTED] our hands have been tied because of various environments and [REDACTED] and [REDACTED] of where we are. But I mean, [REDACTED] to give you an example of how costly the lawyer time is, the [REDACTED] time is defend my case, which [REDACTED] I'm requesting a dismissal and dismissal right now because it's [REDACTED] so absolutely. It's [REDACTED] ridiculous desert so [REDACTED] I'm asking dismissal. But out of the three attorneys I've talked to, first of all, not a single one of them mentioned dismissals and option. Every one of them was [REDACTED] you did something wrong. You need to pay for it. I'm

■■■ No, it didn't and so not only have I gotten ■■■ ■■■ service and ■■■ ■■■ advice, but they wanted to charge me \$6,000 Robert won't even talk to me about it. So I didn't even I wouldn't even get to Roberts done. I'm done with Robert.

■■■ ■■■ 08:25

But this is ridiculous. But the amount of land that he's cleared, he's got, I mean, absolutely God, do. He absolutely. I mean, there's ■■■ essentially really there's no way he has had to have

■■■ ■■■ 08:39

he's active gone through and pretty much ■■■ up the Reverend if He's landed land isn't isn't wide enough for him to to have not done it. And I bet you anything he's going to ■■■ legs. He's gonna do some ■■■ he's going to ■■■ links with Abernathy and they're going to get one leg together. There's some definitely something in here for Abernathy and Abernathy is definitely a part of it. So we ■■■ gotta find the connection. And then because we can, we can tie Abernathy to the land across to us. So once retirement empty this one. Then we've gotten in we're ■■■ going to see the living ■■■ out of them

■■■ ■■■ 09:21

but yeah, yeah, and we're gonna because we know he's been meddling in real estate for several years now without a license. And so we're it's another thing we're gonna look up

■■■ ■■■ ■■■

Yeah. So, anyway, that's what we're doing with Yeah, so ■■■ sitting out here in the ■■■ I can't see things too dark right now. And the way he's cut the property. I can't see anything over the hill, which was intentional. It's all intentional. So we're gonna find some way to some other way to get around. Anyway. Oh, okay. I guess we're going ■■■ down.
