SPEAKERS

00:02

This is a topic for a letter to the head, the Barnes will about the upcoming county commissioners meeting. Concerning the overgrowth and expansion of continual combustion of property, the arrival of Metro Atlanta, and the priorities of the commissioner's office. wanted to make it clear that, as far as the priorities of the commissioners are concerned, they have already expressed their priorities, they already have stated, so if you haven't realized that by now, you're either living under a or you're living under a you're in denial, or you're in delusion. Those three options are yours. But, but the reality of it is, is that they've already expressed fully there's their set priorities. And there's the set of rules of which they are to govern where you live. And a private meeting and a meeting with Charles The chairman, the chairman of the Chamber of Commerce, Charles said, and I quote, boom, I'm more more, more concerned with encouraging, more and more concerned with promoting business, little marketing, that I am promoting the concerns of the people. Boom, there you go. It's all he had to say. And that's all you need to hear. And you've let him stay in control, same power, now through voting cycle. So guess what, it's kind of your fault. You've left your kind of commissioners the exact same people. They were when all this stuff started. A group of people that are solely concerned with promoting corporate concern corporate priorities over that of the residence me. In case you didn't know, it is the of the Chamber of Commerce, to promote the interest and the concerns of the residents of Lamar County and not their to promote the interest of corporate businesses and privately owned or owned firms of commerce. That's their That's their priority is to promote the interest and the concerns of people of the market. Not those privately owned businesses, corporations, and other financially with financial profit seeking for firms. better And then yet, what did we do? We put the same people in office that was in there beforehand. We have not once, we did not remove one member, after all of that, after, after David's expressly said, so it was posted. And most of the county was notified. They're more concerned with money and putting it in their own than taking care of your home. Which is money, the same thing. where whose you won't put it in both of them or money? Depends on whether you want to put it in this person's money, or your own. That's it. Is it no liberal It all boils down to money. It all boils down to finances, it's whenever they say, oh, that's making money. Would that mean what they mean is oh, I'm putting money in my And when you say things Oh, I'm my home. What that means is, I'm the money that I've

already put in my [REDACTED] So it all depends on whose money you're talking about. That's what it all boils down to. Not gonna be stupid ignorant to that fact. I [REDACTED] think that people when people can say something [REDACTED] people's home, or your home, it would have more meaning to you than a [REDACTED] [REDACTED] But maybe I was wrong in this. Maybe that's my fault. Who knows. But as far as meaning is going concern is concerned about the growth expansion, Warren County, you don't even need to go to me. Don't worry about it. Don't waste your [REDACTED] time. Because you already know that is what what it's gonna say is, is the same thing, the same policy, the same positions that they have taken for the past 10 [REDACTED] years is they're gonna promote corporate over years.

[REDACTED] [REDACTED] 04:57

And if you didn't want to live by [REDACTED] quarry Then you should have should have [REDACTED] the [REDACTED] out of that house. But you didn't. Or even after it's [REDACTED] you should have raised a [REDACTED] stink over it. Because it was already decided, before they even opened up the door. He hadn't realized it yet. Your Chamber of Commerce is only interested in sales and making money for themselves. That's it. Period done. There's no debate about this. It's a bunch of people interested in putting money in their own [REDACTED] [REDACTED] It enters the internet about your home, then we're interested about the fact that you [REDACTED] moved down from from Atlanta for a quiet community. And you want to live in a quiet community. They don't care about that. Because of more Atlanta comes here, the more money they got in the [REDACTED] That's all they care about. It's all [REDACTED] they base the form. So their [REDACTED] is based on performance, and how much money they bring into that this county. And the only way they're going to do that is by expanding it. That's it. It's the way the way the world works. And the more the larger the market comes, guess what? The larger money more money they get in their [REDACTED] because they're the amount of money we pay for them to be on the chamber. That goes up. So we'll say besides the fact that they've already made it clear you've already lost out
