So, here it is 1233 on a 1233 and chipper on November the second on Wednesday. And we had a guy come by and ask us the house for sale and seven ask him to say by the way, did you ask somebody? Did somebody tell you the house was for sale? And this is the or fourth person that's done it and the guy said, Yep, I did. And I said, I you know, he didn't want to feel comfortable telling me who the person who taught who told him. But I did ask him if you knew if he knew Brian out and he said, Man, I don't even know the guy. And the fact that he said that I was yep. That name is Brian Abernathy. So suppose that Brian Abernathy is going around town telling everybody our house is for sale. So that's another thing to to the list. So on top of our neighbors saying, Well, we're gonna tell Brian Abernathy about what you've achieved. And that everything that's set up it's 100% Brian Abernathy is doing everything he can. he's he's doing everything. He can to get at it. So I think we need to write that up.
