So he's been in hospital for a long time. Which, which, how what he was referencing was the fact that I've been trying to get a hold on Dayton to make an offer on that land. That's what he was referencing, which also meant Dayton was in the hospital when Doug purchased his land and was the one who told me I don't know anything about it, but then turns around and do the real estate real estate and then he's the one that sold the property.
